In an event where the lead changed hands three times in the final laps, Mr Consistency Daryl Nissen with Andrew Harness in the co-driver's seat, were the first to salute the checkered flag at the Loveday 350. Nissen and Harness #164 capitalised on the misfortune of Toby Whateley and Garry Turnbull to finish the ten lap, 350km event, at the top of the time sheets in a total time of 3h587m39s.

Toby Whateley and Simon Herman #621 started the Loveday 350 day two first outright on combined times, however, they stopped to change a belt on the first lap of the fifth race, losing four minutes which they were unable to make up, in the end relegating them to second place come the drop of the checkered flag.

2 weekends, 2 podiums for Nissen and Harness
